JOIN US FOR THE CITY OF DALLAS PACE WORKSHOP HOSTED BY THE CONTINENTAL GIN

DALLAS PACE WORKSHOP

Join us for an interactive conversation about how you can take advantage of the PACE financing program in the City of Dallas. Dive into case studies of successful projects, including the Continental Gin, to learn how PACE projects can transform businesses, revitalize communities, and create jobs.

WHO WILL BENEFIT?

PROPERTY OWNERS:

This workshop will highlight how business and nonprofit property owners now have a viable long-term, 100% financing mechanism for permanent energy and water efficiency upgrades with no out-of-pocket expenses.

LENDERS:

The Workshop will provide local banks and credit unions with an analysis of PACE financing and how local lenders can take advantage of this program to assist their customers and attract others.

CONTRACTORS, ARCHITECTS & ENGINEERS:

The Workshop is a unique opportunity for contractors, architects, engineers, and property or facilities managers to learn how to design a successful PACE project that enables your customers to upgrade their properties and use the energy and water savings to pay for the improvements.
