

Texas PACE Capital Provider Interest Form

Purpose:

Texas PACE Authority (TPA) is implementing Commercial Property Assessed Clean Energy (C-PACE) programs across the state to assist non-residential property owners in making capital investments in qualifying energy efficiency, renewable energy and water efficiency improvements in commercial (nonprofit, hospitality, healthcare), industrial (manufacturing, agricultural), and multifamily (5 or more units) properties. Qualifying property owners receive long term financing for up to 100% of the cost of eligible improvements with repayment of the financing through a voluntary assessment on the property.

The Texas PACE program uses an “Open Market” financing structure whereby property owners have the flexibility to select their preferred private capital provider for each individual project. This open market structure is governed under the “[PACE in a Box](#)” guidelines developed by program stakeholders. No state funds are made available for funding C-PACE projects. No exclusivity or preferred status will be given to capital providers; the property owners retain the right to choose the type and provider of financing that works best for them.

Qualified capital providers may choose to be listed on the TPA website at www.texaspaceauthority.org/capital-provider-list. TPA reserves the right to remove capital providers from the list if they are found to have submitted false information on the capital provider interest form or are in violation of best practices of the Texas PACE program.
