## JOIN US FOR THE COASTAL BEND PACE WORKSHOP

Join us for an interactive conversation about how you can take advantage of the TX-PACE programs in Aransas, Nueces, and San Patricio counties. Dive into case studies of successful projects to learn how PACE projects can transform businesses, revitalize communities, and create jobs at this PACE workshop.

### PROPERTY OWNERS:

Business and nonprofit property owners now have a viable long term, 100% financing mechanism for permanent energy and water efficiency upgrades with no out of pocket expenses.

### LENDERS:

The Workshop provides local banks and credit unions an analysis of TX-PACE and how local lenders can take advantage of this program to assist their customers and attract others.

### CONTRACTORS, ARCHITECTS & ENGINEERS:

The Workshop is a unique opportunity for contractors, architects, engineers, and property or facilities managers to learn how to design a successful PACE project that enables your customers to upgrade their properties and use the energy and water savings to pay for the improvements.
